

Spring
2016

CSUN

COLLEGE OF
ENGINEERING AND
COMPUTER SCIENCE

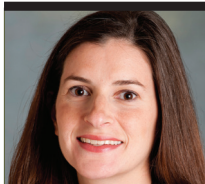

Come and listen to your colleagues speak about their research and teaching interests and exciting projects that they are working on. We are delighted to continue the series that premiered in fall 2012 with our newest faculty members, to provide opportunities for all faculty in our college to share their work.

Join us in Jacaranda Hall - JD 1568 from 12:00 - 1:00 p.m.

Lunch will be provided thanks to the generous support of  IEEE

RSVP to Kathleen Pohl at kpohl@csun.edu

**Wednesday
Feb. 3**

ANI NAHAPETIAN

Associate Professor, Computer Science

Mobile and Wearable Security

**Thursday
Feb. 18**

SEMBIAM RENGARAJAN

Professor, Electrical & Computer Engineering

The Legacy of James Clerk Maxwell

**Friday
Feb. 26**

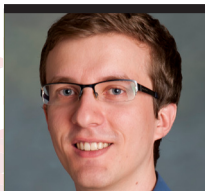

JOHN MOTIL

Professor Emeritus, Computer Science

**Alternative Views of Digital Logic Systems
(including Probabilistic & Beyond-Binary) via Set
Maps and Numberings**

**Monday
April 4**

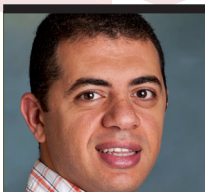

CHRISTOPH SCHAAL

Assistant Professor, Mechanical Engineering

Ultrasonic waves and their applications

**Tuesday
April 12**

PETER BISHAY

Assistant Professor, Mechanical Engineering

**"FEApps": A course project that combines coding
and App designing with engineering fundamentals**

**Thursday
April 21**

JACK OU

Assistant Professor, Electrical & Computer Engineering

**Design Considerations of Wireless Body Area
Network Circuits**

**Tuesday
May 3**

TADEH ZIRAKIAN

Assistant Professor, Civil Engineering & Construction Management

Steel Plate Shear Wall Systems

Brown Bag Spring 2016
Research Seminar Series @ 12 p.m.
College of Engineering & Computer Science
