

Come and listen to your colleagues speak about their research and teaching interests and exciting projects that they are working on. We are delighted to continue the series that premiered in fall 2012 with our newest faculty members, to provide opportunities for all faculty in our college to share their work.

Brown Bag Fall 2016
Research Seminar Series @ 12 p.m.
College of Engineering & Computer Science

Join us in Jacaranda Hall - JD 1568 from 12:00 - 1:00 p.m.

Lunch will be provided thanks to the generous support of  **IEEE**
 RSVP to Kathleen Pohl at kpohl@csun.edu

**Wednesday
 October 5**

VIBHAV DURGESH

Assistant Professor, Mechanical Engineering

Flow Visualization on NACA Airfoils

**Monday
 October 24**

RAIS AHMAD

Assistant Professor, Civil Engineering & Construction Management

Evaluation of Seismic Performance Factors in High Rise Steel Buildings with Dual Lateral Systems Consisting of Buckling Restrained Braced Frames and Intermediate Moment Frames

**Wednesday
 November 2**

JIMMY GANDHI

Assistant Professor, Manufacturing Systems Engineering & Management

Innovation and Entrepreneurship in Engineering Education

**Thursday
 November 10**

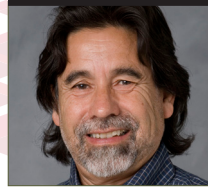

VYDIA NANDIKOLLA

Assistant Professor, Mechanical Engineering

The Mechatronics Laboratory Experience for Undergraduates

**Monday
 November 14**

BRUNO OSORNO

Professor, Electrical & Computer Engineering

Electric Speed Drives for Electric Cars (ESDEC)

**Wednesday
 November 30**

ROBERT McILHENNY

Associate Professor, Computer Science

From Decimal to Binary Back to Decimal: Computer Arithmetic Make a Full Cycle

**Thursday
 December 8**

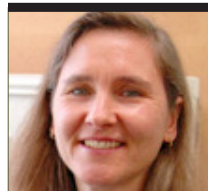

BEZAD BAVARIAN

Professor, Manufacturing Systems Engineering & Management

Corrosion Protection of the Above Ground Tanks Using Nano-Particle Size Vapor Phase Corrosion Inhibitors

**Tuesday
 December 13**

MONICA KOHLER

Research Assistant Professor, Mechanical and Civil Engineering, Caltech

Guest Lecture
